PROFESSIONAL SUMMARY

Master's graduate in Business Analytics & Data Science from IE University (Madrid) and AWS Certified Cloud Practitioner with 4+ years of experience across operational, analytics, and innovation-focused initiatives in public and private sector environments. Hands-on experience building data-driven and AI-powered solutions using SQL, Python, data pipelines (Kafka, Apache NiFi, Spark, MinIO), cloud technologies and BI dashboards (Power BI, Tableau). Proven ability to collaborate with multidisciplinary teams, communicate technical findings clearly and deliver measurable operational impact through analytics, automation and scalable workflows.

EDUCATION

IE BUSINESS SCHOOL

MADRID, SPAIN

Master in Business Analytics and Data Science GPA: 3.63 / 4.0

APR. 2025 – MAR. 2026

- IE Foundation Scholarship & Valentín Díez Morodo Scholarship: awarded to high-potential candidates from Mexico based on academic merit and leadership.

UNIVERSITY OF GUADALAJARA

GUADALAJARA, MEXICO

Bachelor of Business Engineering

AUG. 2019 – JUL. 2023

- Graduated with honors, recognized by Campus Chancellor. GPA: 98.67/100.

DATA & CLOUD PROJECTS

- Roche - Laboratory Delay Risk Predictor (IE University Capstone):** Designed a predictive analytics system on synthetic laboratory data to identify experiments at risk of delay. Built end-to-end pipeline from data ingestion to ML model output, supporting operational decision-making with an agentic AI layer in a cloud-native environment. [Link](#)
- IATA & Infosys Sustainability Datathon - Top 5 Finalist:** Built scenario-based forecasting models using time-series demand analysis and Python to estimate SAF fuel adoption and emissions reductions across European aviation (using real IATA industry datasets). Presented data-driven insights and recommendations to industry judges. [Link](#)
- Transport for London - Real Time Data Architecture Project:** Designed a real-time data pipeline architecture using Kafka, Apache NiFi, Spark, and MinIO for transportation analytics, covering data ingestion, processing, storage, and downstream reporting processes.
- Madrid Bike Sharing System:** Performed data cleaning, exploratory data analysis, and feature engineering using Python and Pandas to analyze bike-sharing demand patterns and operational trends. Built a Streamlit dashboard to visualize demand forecasts, mobility insights, and operational metrics.

PROFESSIONAL EXPERIENCE

NEURONA, SOCIAL INNOVATION LABORATORY (GOVERNMENT OF ZAPOPAN)

ZAPOPAN, MEXICO

Program Coordinator & Strategic Innovation Analyst

MAR. 2021 – MAR. 2025

- Built KPI dashboards and impact tracking systems in Power BI for 3,000+ participants, enabling real-time operational decision-making for government stakeholders.
- Designed and automated operational workflows by integrating databases and external tools, reducing administrative processing time from 1 week to under 10 minutes.
- Reduced participant dropout from 40% to 5% through engagement data analysis and user-centered engagement strategies.

OLEADA MX

GUADALAJARA, MEXICO

AI & Business Solutions Consultant

JAN. 2024 – MAR. 2025

- Designed and implemented a cloud-connected RAG workflow using n8n, OpenAI APIs, pgvector and PostgreSQL to automate document ingestion, embedding generation, semantic retrieval and AI-assisted user interactions for SME and public-sector use cases. [Link](#)
- Translated client business requirements into AI-driven workflows, KPI frameworks and scalable automation solutions aligned with operational and customer needs.

TECHNICAL SKILLS

Python | SQL | Scikit-learn | Kafka | Apache NiFi | Spark | MinIO | ETL/ELT Pipelines | AWS Cloud Foundations | Azure/GCP/Databricks | Power BI | Tableau | Streamlit | RAG Workflows | Prompt Engineering | APIs | Agile | Stakeholder Management

CERTIFICATIONS

Certified AWS Cloud Practitioner | Lean Six Sigma Yellow Belt | PMI - Project Management Fundamentals

LANGUAGES

English (Bilingual); Spanish (Native); French (Basic)
